

General Academic Tutorials

These tutorials are designed to provide you with additional support and guidance to enhance your understanding and performance in your academic studies. To ensure that our tutorial sessions are productive and tailored to your needs, please consider the following questions before your scheduled tutorial:

Academic Progress

1. How do you feel about your overall progress on this course?
2. What topics have you found particularly challenging? Why?
3. Are there any areas where you feel confident and successful in your academic work?
4. Reflect on your recent assignments. What feedback have you received? How do you plan to address areas of improvement?

Study Habits

1. What is your study routine? Is it effective? Are there any areas you could improve?
2. Are there any study techniques or strategies you would like to explore or improve on?

Course Material

1. Review your course syllabus and notes. Are there any topics or assignments you would like to discuss further during your tutorial?
2. Reflect on your understanding of the course. What do you find most interesting?
3. Are there any additional resources or materials you believe would enhance your learning on this course?

Administrative Tasks

1. How prepared are you for upcoming deadlines?
2. Have you encountered any technical issues or challenges accessing course materials or online platforms?

Agreed Action Points
